Margazhi 2025
Getting Started with the Algorhythmic Chase 🚀

1 Register individually on Paradox portal

Sign into **https://margazhi.iitmparadox.org** with your student email and register for **LogicLooM 3.0**

Go through our event rulebook.

2 Form Your Team 💥

- Login to our **LogicLooM App** and start inviting your team-mates

- Each team can have at the most 3 participants

3 Join Mentor sessions

Learn from scratch in the **hands-on sessions** conducted esp. for the Beginner Pioneers and take the plunge towards your first model building!

Go through the **resources** provided by the team, solve the tasks, after which you're be good to go for the contest!

4 Model building Phase 🔥

- After the **problem statement and datasets are released**, teams start discussing and collaborate on building the solution!

- Optimise model performance based on validation set scores

5 Submission of Runs

Teams submit the best **system predictions** on the test set along with the working code and saved model.

Top models from each category are reviewed based on *novelty* of the solution and *techniques* used.

6 Race to Glory!

Achievers deploy apps and pitch their solutions in the finale.

Compete for a **Prize Pool** of **INR 13K**!!
